

Refrigerator/Freezer

SAMSUNG

RB37J5315SS/EF and RB37J5315WW/EF

LED display

Easily control temperature settings, the power freeze function or vacation mode with this stylish external display.

Power Freeze

With an easy push of a button you activate power freezes which is perfect when you have put lots of food in your freezer and quickly want cold air for powerful freezing.

No Frost

Never have to worry about manual defrosting again. Samsung's true No Frost ensures a frost free interior which keeps your food fresh longer and contributes to lower energy consumption by avoiding ice build-up.

Fresh Zone

This zone has a temperature lower than the fridge. If you set 2°C for the fridge, Fresh Zone becomes the optimal space for meat and fish.

Extended durability and less noise

Enjoy a more silent and more energy efficient refrigerator with Samsung's Digital Inverter Compressor. By using several sensors this smart compressor can adapt its working intensity which extends durability.

All around cooling

With air ducts on every shelf and in every drawer you can rest assured that your food is always kept at the optimal temperature and that coolness is restored quickly after opening the doors or drawers.
