

Microwave oven

SAMSUNG

MS28F303EAW/EE

TDS – Triple Distribution System

Ordinary microwave ovens use only one antenna for the waves. Samsung's microwave ovens have three, one in the roof and two on the sides. This will give you a more even heating, faster cooking and more evenly warm food.

Premium Design

Enhance your kitchen with this stylish 23L microwave oven, featuring a black glass front encased in a black exterior with a silver handle and a crystal blue display and detailed silver dial.

Ceramic Enamel interior

The Ceramic Enamel interior protects against scratches, is easy-to-clean and prevents build up of harmful bacteria. Also, the coating does not absorb moisture, odour or flavor so there is no transfer of smell or flavour during the next cooking process. The interior of the microwave oven stays as new for a long time.

Ice Blue LED display

There's also an electronic clock with minute minder that lets you time your cooking up to 60 minutes. As well as the current time when the oven is not in use.
